

Subject-Specific Vocabulary Cloze

Name: _____

Date: _____

Read each passage carefully and fill in the blanks using the words from the word bank.

Science Passage

Word Bank: evaporation | condensation | precipitation | water cycle | atmosphere

The _____ is the continuous movement of water on, above, and below the surface of the Earth. Water from oceans, lakes, and rivers is heated by the sun and turns into water vapour through a process called _____. This water vapour rises into the _____ where it cools down. As it cools, _____ occurs and the water vapour changes back into tiny water droplets, forming clouds. When these droplets become heavy enough, they fall back to Earth as _____, which can be rain, snow, sleet, or hail.
