

GST Calculations on Purchases

Name: _____

Date: _____

Remember: GST in New Zealand is 15%. To calculate GST, multiply the price (excluding GST) by 0.15. To find the total price including GST, multiply by 1.15 or add the GST to the original price.

Section A: Calculate the GST Amount

Find the GST on each item (price shown excludes GST).

- | | |
|---------------------------|----------------|
| 1. Bicycle: \$240.00 | GST = \$ _____ |
