

# Rounding Money to the Nearest Dollar

Name: \_\_\_\_\_ Date: \_\_\_\_\_

## Remember:

- If the cents are 50c or more, round UP to the next dollar
- If the cents are less than 50c, round DOWN to the dollar below

## Part A: Round these amounts to the nearest dollar

- |                      |                       |
|----------------------|-----------------------|
| 1. \$3.25 = \$_____  | 2. \$7.80 = \$_____   |
| 3. \$12.45 = \$_____ | 4. \$9.50 = \$_____   |
| 5. \$15.90 = \$_____ | 6. \$4.30 = \$_____   |
| 7. \$23.65 = \$_____ | 8. \$18.20 = \$_____  |
| 9. \$6.55 = \$_____  | 10. \$31.40 = \$_____ |

## Part B: Round these shopping items to the nearest dollar

11. An apple costs \$1.85  $\approx$  \$\_\_\_\_\_
12. A sandwich costs \$6.50  $\approx$  \$\_\_\_\_\_
13. A book costs \$14.95  $\approx$  \$\_\_\_\_\_
14. A toy costs \$22.10  $\approx$  \$\_\_\_\_\_
15. A jumper costs \$37.75  $\approx$  \$\_\_\_\_\_

## Part C: Word Problems

16. Sam has \$8.60 in his wallet. Round this to the nearest dollar.  
Answer: \$\_\_\_\_\_
  17. A drink costs \$3.45. Round this to the nearest dollar to estimate the cost.  
Answer: \$\_\_\_\_\_
  18. Lucy wants to buy a game for \$19.50. Round this to the nearest dollar.  
Answer: \$\_\_\_\_\_
- 

## Challenge!

19. Round these amounts, then add your rounded numbers together:

$$\$4.75 + \$6.30 + \$2.80$$

Rounded: \$ \_\_\_\_\_ + \$ \_\_\_\_\_ + \$ \_\_\_\_\_ = \$ \_\_\_\_\_
